Education Funding Crisis

The VSB (along with many districts in BC) is predicting an enormous budget deficit. In Vancouver this deficit is estimated to be between 16 and 34 million dollars. This year's budget shortfall comes after years of funding cuts.

Unless the provincial government has a change of heart, there will be layoffs and cuts to programs and supports for students. At the core of this unprecedented funding crisis is the growing number of downloaded costs the province has so far refused to cover in provincial education funding grants.

These include

- increases for teacher salaries and benefits under contracts the province negotiated;
- new provincial carbon tax and carbon offset charges;
- increases to provincial MSP and WCB premiums;
- implementation costs of new provincial requirements like Bill 33 and all-day kindergarten; and
- general inflation, which the provincial funding formula also does not cover.

BC Budget Day is March 2, so it's urgent that BC MLAs hear from as many people as possible before that date if we want to avert unprecedented cuts to our public schools!

About BCSPE

BCSPE is a registered society dedicated to upholding the values and tradition of public education in Canada. We support advocacy to strengthen public education, believing that the best advocacy is rooted in sound research and analysis. We are active in carrying out our own research and in highlighting the research of others as it relates to public education.

Our Board of Directors: Debbie Desroches-Fulton, Annie Ehman, Catherine Evans, Helesia Luke, Allison McDonald, Kelly Read and Cynthia Wong

Select Standing Committee Recommendations

In December 2009, after consulting with groups across BC, the Select Standing Committee on Finance and Government Services made recommendations related to funding K-12 education including:

- Work with boards of education to conduct a comprehensive review of the education funding formula.
- Work cooperatively with the boards of education on a review of the administrative and reporting requirements for each school district and within the Ministry of Education.
- Treat the annual facilities grant as a high priority for funding in the 2010/11 Budget.
- Ensure that the implementation of all-day kindergarten is fully funded.

We urge the government to listen to its pan-partisan committee and fully fund public schools. To view these recommendations visit the Ministry of Finance website.
